

CMF extends consultation timeframe for amendments on regulation about payment card issuers, operators

Given the industry's interest in submitting feedback, the Board of the CMF approved extending the consultation timeframe.

These amendments are related to changes in the Compendium of Financial Standards of the Central Bank of Chile.

January 13, 2025 — The Financial Market Commission (CMF) extended the consultation timeframe for feedback for amendments about third-party processing operators, cross-border processing, and other adjustments pursuant to the Ill.J series of Chapters of the Central Bank of Chile's Compendium of Financial Standards. This was due to industry requests for more time to conduct technical assessments of the proposed amendments and provide background information.

The public consultation is extended until **February 7, 2024**.

Interested parties can check the [Regulations Under Consultation section](#) on the CMF website to review the corresponding [Regulatory Report](#) and submit comments.
